## ABOUT US

The Seattle Philanthropic Advisor's Network hosted its first event in October 2007. Since then, it has planned and hosted (or co-hosted) ten events and membership has soared.

Our mission is to connect professional advisors with each other, with clients, and with worthy non-profits to help us all become more effective, and bolder, philanthropists.

We have been fortunate to receive sponsorship support from a broad range of organizations to date. Now we encourage you and your company to join us!

# Sponsorship Opportunities

The Seattle Philanthropic Advisors Network is a philanthropically oriented group of financial, legal accounting, insurance, and other professionals who advise clients with charitable intent.

Our goal is to provide opportunities for learning about philanthropic practices broadly that relate to improving communities and society.
